

Fly to the Moon

Michael W. Smith

Fly to the moon
Well, you could do it if you wanted to
Try flying high
The only limit, is the endless sky
So, go on and fly to the moonLive in the sun
You know, your living has just begun
So much ahead
Don't let the night'll be for you for dead
So come on, live in the sun, yeahFly to the moon
And when you find your wings
I will celebrate with you
Watch you as you soar
Take the wishes that are yours
And let them fly you to the moonDream on a star
You can let it take you near or far
Feet on the ground
Don't let anybody hold you down
So, go on and dream on a star, yeahFly to the moon
And when you find your wings
I will celebrate with you
Watch you as you soar
Take the wishes that are yours
I know you can fly to the moonYou can do all things
I will celebrate with you
It's hard to let you go
Still, you have to go, I know so go onFly to the moon
And as you spread your wings
I will celebrate with you
Hope we taught you good
Hope you know that if I could
I would fly away with youI would fly away with you
I would fly away with you
I would fly away with you
I would fly away with youGotta take it all the way
When you follow dreams, follow far
Flying high and away
You're flying all the way
Gotta take it all the way

When you follow dreams, follow far
Flying high and away
You're flying all the way
To the moon, yeah yeah, yeah, yeah
