Under

Pleasure P

Verse 1:
calling my river tune letting her know ima be on my way
missing how the river flow even though it's only been a couple of days

cause it be raining in caplaining in got the water made for drinking uh
baby if i drown tonight its all worth it for you i don't need no rescue

Chrous:
ima hold my breath until u feel it in ya chest when i go under under
i ain't coming up until u scream in i give up when i go under under

u be making waves my shift still the same i got what it takes to swim up in all day i want u to shake in later tell me it was worth it when i go under under

Verse 2:
girl relax captain can handle dat ima take this cruz real slow
heading to paradise close your eyes in all u gotta do is let it go

the way your body flow inside let it show in i can't stop into this feeling over
its a sight to see when it's calling me telling me your bodys getting closer

Chrous:
ima hold my breath until u feel it in ya chest when i go under under
i ain't coming up until u scream when i give up when i go under under

u be making waves my shift still the same i got what it takes to swim up in it all day i want u to shake in later tell me it was worth it when i go under under

Interlude:
im jumping in on lifesaver don't know when im coming up
deep sea diving in your treasure im giving u all this pleasure
oow girl im so into u so deep i don't know wat to do
just let the water flow to the title were u want yourself to show

Chrous:
ima hold my breath until u feel it in ya chest wen i go under under
i ain't going up into u scream in i give up when i go under under
u be making waves my shifts still the same i got wat it takes to swim up in it all day
i want u shake in later tell me it was worth it when i go under under
yea yea yea yea under under.
