

Dr. Awkward

Tesla Rossa

So this turns the way iâ€™ve looked at everyday things on its side
We want the gold too familiar with the old and itâ€™s oh my god
Youâ€™ve turned a liar to a believer with a machine gun
Whilst open fire made a promise no one would get hurt

But who am i kidding
Who are you kidding
Who are we kidding
Weâ€™re only kidding ourselves

How far is too far when the timing is awkward
Who am i kidding
Now its revenge and a never ending cringe but itâ€™s on your watch
If there is a science for being quiet than you just proved it
Youâ€™re from the future
Youâ€™re from my mother
