Decades

Jim Ward

Gold-painted feathers
a well-written line
a cold between lovers, older than time
I wish there were words that we only knew
I'd sing them forever and only to you

You understand...and that's all, it's all I can ask
and you know it and I know it

Seeds you collect, I'll plant them for you
I promise to see them all the way through
from beginnings to endings
heartache and love
it's me and it's you and that's more than enough

You understand...and that's all, all I can ask
you know it and I know it

There's been decades behind us and decades to come
decades colliding and decades undone
There's been decades behind us and decades to come
decades colliding and decades undone
And you, you understand....and that's all, it's all I can ask
you know it and I know it
we know this is it
