

# Set the Night On Fire

Camryn

1,2,3

Ready set

For a night that we will never forget

City lights, in a sight

Gonna take this town, over tonight(Turn it, turn it loud)

Wanna feel the sound take over

(Turn it, turn it loud)

All the wayThrow your hands up high

Cause it feels so right

Gonna set this night on fire

Boost the 808'S, make the ground shake

Gonna set, set the night on fireThrew your hands up high

Cause it feels so right

Gonna set this night on fire

Boost the 808'S, make the ground shake

Gonna set, set the night on fireBring it down, nice and low

When the moments right, just let it go

Loose yourself, in the crowd

The time is now, and we don't want out(Turn it, turn it loud)

Wanna feel the sound take over

(Turn it, turn it loud)

All the wayThrow your hands up high

Cause it feels so right

Gonna set this night on fire

Boost the 808'S, make the ground shake

Gonna set, set the night on fireThrew your hands up high

Cause it feels so right

Gonna set this night on fire

Boost the 808'S, make the ground shake

Gonna set, set the night on fireCause tonight's the night

There's no time to spare

Feel the music in the air

Let rhythm flow, let your body go

Let the fire take control1,2,3
