

This Broken Heart

The Mavericks

This broken heart will never love again
Because I don't want it to
You came along and showed me I was wrong
To think, that I could never love you Every time I run away
I know you'll always stay This broken heart will wear the pain she bore
With you my heart won't break anymore Every time I run away
I know you'll always stay This broken heart will wear the pain she bore
With you my heart won't break anymore No, with you my heart won't break anymore
