

# Gold

## Mando Diao

La, la, la  
Twilight in my eye  
Then I can see for seven million miles  
Twilight in my eye tonight  
The dreams become clear  
The fog gets thicker every time I inhale  
Stars look the same to me  
Oh my God, I went gold when I saw your smiling face  
I went gold when I went through this troubling maze  
I went gold and my people behind me all did the same  
Oh my God, I went gold when the ocean swallowed me  
I went gold and I felt that I was free  
I went gold and my people behind me all did the same  
It's a way to the heaven, don't try to feel too much  
Just let the morning dry your eye  
And I say la, la, la  
Let it all in  
Don't feel afraid of dying, just give in  
Let it all in tonight

Oh my God, I went gold when I saw your smiling face  
I went gold when I went through this troubling maze  
I went gold and my people behind me all did the same  
Oh my God, I went gold when the ocean swallowed me  
I went gold and I felt that I was free  
I went gold and my people behind me all did the same  
It's a way to the heaven, don't try to feel too much  
Just let the morning dry your eye  
And I say la la, la la, la  
La, la, la

Oh my God, I went gold when I saw your smiling face  
I went gold when I went through this troubling maze  
I went gold and my people behind me all did the same  
Oh my God, I went gold when the ocean swallowed me  
I went gold and I felt that I was free  
I went gold and my people behind me all did the same  
La, la, la
