Genesis

When it's cold, it comes slow It is warm, just watch it grow All around me It is here, it is now Just a little bit of it can bring you up or down Like the supper it is cooking in your hometown It is chicken, it is eggs, it is in between your legs It is walking on the moon, leaving your cocoon It is the jigsaw, it is purple haze It never stays in one place, but it's not a passing phase It is in the single's bar, in the distance of the face It is in between the cages, it is always in a space It is here, it is now Any rock can be made to roll if you've enough of it to pay the toll It has no home in words or goal, not even in your favorite hole It is the hope for the dope when you ride the horse without a hoof. It is shaken, not stirred, cocktails on the roof When you eat right through it you see everything alive It is inside spirit, with enough grit to survive If you think it's pretentious, you've been taken for a ride Look across the mirror son, before you choose, decide It is here, it is now, it is real, it is real 'Cause it's only knock and know all, but I like it Yes it's only knock and know all, but I like it Yes it's only knock and know all, but I like it, I like it, I like it Only knock and know all, but I like it, like it, like it Like it all around me, like it all around me
