After All

The Miracles

Still I ask myself, why do you always make me sad
Why do you always treat me bad, after all
After all, I'm the one who loves you (Yes I do)
Still I ask myself, why do you always hurt my pride
When you know, I'll always be by your side, after all
After all, I'm the one who loves youIf you, are to venture out, and look anywhere, anywhere in this world
Just you wait and see, you'll be back to me
You'll never find, a love like mine, in any other girl
And when you come back to me, I guess I'll have to take you in
So we can start, all over again, after all
After all, I'm the one who loves you (Yes I do)
I, I love you, no matter what you do (Yes I do)
I'm still in love with you, (yes I do) no matter what you say
I'm gonna love you
