

Orange Crush

R.E.M.

You were so sweet, swept off my feet
Thought it was fake, it was just fake
Synthetic lust 'Cause some of this wrapped in a kiss
Set going mess, I must express
You're like orange crush I was a fool but now I see
Your perfect love was make-believe
And that your heart is empty I don't like too much of this sugar rush
Oh, oh, no more orange crush
I don't like too much, won't you shut up
Oh, oh, no more orange crush You made me sick, had better kicks
You're flowing still, I had to bail
On the orange crush I was a fool but now I see
Your perfect love was make-believe
And now the bottle's empty I don't like too much of this sugar rush
Oh, oh, no more orange crush
I don't like too much, won't you shut up
Oh, oh, no more orange crush Oh, oh, oh, oh, no more orange crush
Oh, oh, oh, oh, no more orange The orange sky has turned into a deeper blue
I can't believe that I fell down into you I don't like too much of this sugar rush
Oh, oh, no more orange crush
I don't like too much, won't you shut up
Oh, oh, no more orange crush I don't like too much of this sugar rush
I don't like too much of this sugar rush
Oh, oh, no more orange crush
