

# Origins

## Tennis

Sensitive heart, you're doomed from the start  
Meant to play the penitent part  
Inquisitive mind, you're destined to find  
Tempted fate and I'll intervene You in there, a pittied pair  
Denoted by a scene unfair  
Will you make my children bare?  
The consequence is everywhere Is it so hard to forgive the way  
That we have made to live, how much  
Is required to set things right  
Have you confused your power with mine Oh oh oh You in there, a pittied pair  
Denoted by a scene unfair  
Will you make my children bare?  
The consequence is everywhere Imminent you seem to be  
A picture of fragility  
What is it that you think of me  
Is it a woman that you see? Is it so hard to forgive the way  
That we have made to live, how much  
Is required to set things right  
Have you confused your power with mine Oh oh oh Is it so hard to forgive the way  
That we have made to live, how much  
Is required to set things right  
Have you confused your power with mine Oh oh ooo oh oh ooo oh oh..
