Fly

Sick Puppies

I do the same thing, never pretend
Hoping just to end this phase
Out Am rock them? but never to shock them
Oh, how that's what I really say
Let's take this ass and go out of the town
Maybe is hate I put out in this sound?
Into my bed, I sit instead
I don't think you're my typeBut at the moment it doesn't really matter no
Is not that personal
Ah, whatever like to you anywayI just wanna fly, out of the sky
To anything that I
Can fallback or defenseI just wanna fly, out of the sky
To anything that I
Can fallback or defenseI must defend it, the people will continue it
And I'm sore, but I won't this anymore
I wasn't forget
My mom says it, again, again and againI laugh and stand, so I'll rock with my band
Hope that someone pick me up the ground
I see must beauty in the world
I'm sick of feeling so uglyI just wanna fly, out of the sky
To anything that I
Can fallback or defense I just wanna fly, out of the sky
To anything that I
Can fallback or defense
Honey!(break)
I just wanna fly, out of the sky
To anything that I
Can fallback or defense I just wanna fly, out of the sky
To anything that I
Can fallback or defense
