Hell Yeah

Yung Joc

Shorty, what the mood is? Stacks on deck
(Hell yeah)
Is that your life savings layin? 'round your neck
(Hell yeah)
You place ?em shoes on that old school Lac
(Hell yeah)
Is you my nigga 'til they take your last breath?
(Hell yeah)
Any kind I?m with your way, with your way, I?m with you
(Hell yeah)
Any kind I?m with your way, with your way, I?m with you
(Hell yeah)
Any kind I?m with your way, with your way, I?m with you
(Hell yeah)
Any kind I?m with your way, with your way, I?m with you
Everybody know me, better believe I'm O.G.
Back, back, gimme four feet for the iron, leave you with a slow leak
Slow creep through your neighborhood
Black SS with the Gator and the wood
350 big block under my hood, crack my window, smell that good
Wipe it down, I wish you would, bite my style, you wish you could
On my town I rep my hood 'til they lay me down, it's understood
Oh yeah, I ride for my homies, I die for my homies
I lost a couple loved, yeah, I cry for my homies
Big guap on deck, crack rocks on my neck
Patron shots up next, make it rain, leave 'em wet
What I got you can get it, pimp, tell what's the bid'ness pimp?
Fresh cake, then make them flip, then be shoppin? on the imp
If you think I'm lyin? then my name ain't Joc
The hustle gotta hollerate ?cause I ain't gon' stop
Yeah, I play my cards well but this ain't poker, I ain't bluffin?
And if you thug it like I thug it then I got one question
Shorty, what the mood is? Stacks on deck
(Hell yeah)
Is that your life savings layin? 'round your neck
(Hell yeah)
You place ?em shoes on that old school ?Lac
(Hell yeah)
Is you my nigga 'til they take your last breath?

(Hell yeah)
Any kind I?m with your way, with your way, I?m with you
(Hell yeah)
Any kind I?m with your way, with your way, I?m with you
(Hell yeah)
Any kind I?m with your way, with your way, I?m with you
(Hell yeah)
Any kind I?m with your way, with your way, I?m with you
Oh yeah, my swagger kill 'em, call me Bellugi Williams
Don't let the smooth taste fool you, J so sick need penicillin
I love the streets, boy, I fuck with d boy
Whole lot of money off in these streets so pull up a seat let's eat, boy
Haters gon' have plenty to say long as pennies off in my safe
So don't make me retaliate, AK spray every kinda which-a-way
I do shit you never seen before, all my clothes next season, hoe
All my whips the cleanest, yo, if you ain't gon' ball what you breathin? for?
From hood to hood my name good, Cartier lens, frame wood
Your bitch a 10, the brains good
(I love this song)
I knew you would
Real recognize real, dawg, that's just how I feel
I got nothin? but love to give on everything, that's how I live
Shorty, what the mood is? Stacks on deck
(Hell yeah)
Is that your life savings layin? 'round your neck
(Hell yeah)
You place ?em shoes on that old school ?Lac
(Hell yeah)
Is you my nigga 'til they take your last breath?
(Hell yeah)
Any kind I?m with your way, with your way, I?m with you
(Hell yeah)
Any kind I?m with your way, with your way, I?m with you
(Hell yeah)
Any kind I?m with your way, with your way, I?m with you
(Hell yeah)
Any kind I?m with your way, with your way, I?m with you
Ayo, Joc, lemme get some of this, man
C'mon check this out
Okay I live it, I done it, oh yeah, that's Hustlenomics
The ice, the clothes leave hoes astonished
I know you see it, think twice to believe it
Dope boy, magic got my pinky gleaming
Give you the shoes off my feet, shirt off my back
The blueprint to these streets, show you how to make that paper stack

C'mon
(Hell yeah)
I'm there for real
(Hell yeah)
I'm super chill
(Hell yeah)
If you need a tip I'm right here
(Let?s go)
Shorty, what the mood is? Stacks on deck
(Hell yeah)
Is that your life savings layin? 'round your neck
(Hell yeah)
You place ?em shoes on that old school ?Lac
(Hell yeah)
Is you my nigga 'til they take your last breath?
(Hell yeah)
Any kind I?m with your way, with your way, I?m with you
(Hell yeah)
Any kind I?m with your way, with your way, I?m with you
(Hell yeah)
Any kind I?m with your way, with your way, I?m with you
(Hell yeah)
Any kind I?m with your way, with your way, I?m with you
