Stonehenge

High Duchess

Cause I'm a keep my stones cleansed out to the Stonehenge
And we gon' keep it stone cold right to the bone bone
Won't have to baptize me already did that
Won't have to chastise me where is the kid at
Different obstacles warrants from being victimized (victimized)
I summarize my solutions, think restitution and realize (realize)
I live my life on the stage, presence of pain
And I'm thinking if I had fangs nobody would bother me
Jesus had a plan before anyone ever knew me
I'm regarded as a sell out, I'm a false friend, but the truth be
I was the one who was sold out
