

Loving Every Minute

Mark Wills

Advisory - the following lyrics contain explicit language:

I was never really breathing
My heart was never really beating
Till you held me in your arms
And every love that didn't last
Every second of my past
Simply disappeared into the dark And with that first kiss
I felt my life beginning
And the clock just froze
And the world stopped spinning Now the magic of that moment
Is never ending
You made time stand still
And I'm loving every minute Its a need that never changes
A passion that is ageless
It consumes me like it did when it was new
You have led me to a place
Where everyday's the same
And I'm always falling more in love with you And with that first kiss
I felt my life beginning
And the clock just froze
And the world stopped spinning Now the magic of that moment
Is never ending
You made time stand still
And I'm loving every minute And with that first kiss
I felt my life beginning
And the clock just froze
And the world stopped spinning Now the magic of that moment
Is never ending
You made time stand still
And I'm loving every minute Oh, oh, oh
And I'm loving every minute
Oh, oh, oh
Loving you baby
