

The Sun

Big Charlie

When it comes up over me
the sun rises in me.
when it comes up over you
the time stops beating.
When it comes up over me
this time let me in
When it comes up over you
the sunrage will come
rage will come closer
and this time you breathe it
rage will come
rage will come closer
and this time you crawlWhen it comes up over you
don't talk, just let me in
when it comes up over you
the soundrage will come
rage will come closer
and this time you breathe it
rage will come
rage will come closer
and this time you breathe it
rage will come
rage will come closer
and this time you crawl
don't stop
we are trains off the rails
but we can keep rising
so please
don't stop
we know well always be there
and we cant forget the reason
to say
don't stop
we are trains off the rails
but we can keep rising
so please
don't stop
we know well always be there
and we cant forget the reason
to say

don't stop
don't stop rage will come
rage will come closer
and this time you breathe it
rage will come
rage will come closer
and this time you crawl
