New Religion

Black Label Society

Take me
Raise me above
Take me
This undying loveWhat once was
I wish to no longer see
Wings of hatred
Comes at me freeYou are the air in which I breathe
You are the blood I drink and bleed
These words beyond forever true
My new religion is youForsake me
It's you that I serve
Take me
This undying loveYou are the air in which I breathe
You are the blood I drink and bleed
These words beyond forever true
My new religion is youNew religion
New religion
New religion
