Superman's Kiss

Lewisland

What would it take you, to set me free
What would it take you, to let me be
Words wouldnâ€™t break you, with that smile on your face
What would it take you, to make believe
When itâ€™s over, over, would you save me tonight
When youâ€™re sober sober, and you search for the light
And I will find you, find you, itâ€™s a shot I wonâ€™t miss
Youâ€™ve been longing, longing, longing for a supermanâ€™s kiss
What would it take you, to rescue me
What would it take you, to make me see
Love wouldnâ€™t break you, but it could bend youâ€™re knees
The world wouldnâ€™t hate you, if you let it be
When itâ€™s over, over, would you save me tonight
When youâ€™re sober sober, and you search for the light
And I will find you, find you, itâ€™s a shot I wonâ€™t miss
Youâ€™ve been longing, longing, longing for a supermanâ€™s kiss
What would it take you, to answer me
What would it take you, to rescue me
When itâ€™s over, over, would you save me tonight
When youâ€™re sober sober, and you search for the light
And I will find you, find you, itâ€™s a shot I wonâ€™t miss
Youâ€™ve been longing, longing, longing for a supermanâ€™s kiss
