

All My Life

Cas Haley

Going to the time
when I was only nine
We listen to the tune
each and every afternoon
feel the music inside of me
okay, I knew, what to do
I practice all the time
and hope to make it mine
hope to make it mine
Day after day I sit in my room and play
Day after day I try to make it my way
Day after day I sit in my room and play
Day after day I try to make it my way, my way, my way
All my life singing and shouting
never ever got in you
All my life singing and shouting
never ever got in you
Never lose time
I open up my mind
reaches up my soul
and let the song go
feel the music inside of me
Okay, I knew, what to do
I practice all the time
and hope to make it mine
hope to make it mine
Day after day I sit in my room and play
Day after day I try to make it my way
Day after day I sit in my room and play
Day after day I try to make it my way, my way, my way, my way
All my life singing and shouting
never ever got in you
All my life singing and shouting
never ever got in you
