

The Only Place

Best Coast

We were born with sun in our teeth and in our hair
When we get bored we like to sit around, sit around and stare
At the mountains, at the birds, at the ocean, at the trees
We have fun, we have fun, we have fun when we please
We wake up with the sun in our eyes
It's no surprise that we get so much done
But we always, yes we always, we always have fun
Yes we always, yes we always, we always have fun
Why would you live anywhere else?
Why would you live anywhere else?
We've got the ocean, got the babes
Got the sun, we've got the waves
This is the only place for me
So leave your cold behind
We're gonna make it to the beach on time
Yeah leave the cold behind
We're gonna make it to the beach on time
