

Virgin Suicide

Virgin Suicide

I tried so hard hoping you might come out girl and meet me very soon
But calling you up makes it easy just to stay
'Cause I am the [?], I am a teenager [?] out my love
Waiting for a summe falling my [?]
So girl if you want me here, I am fast by your side
I am yours if you'd mind
Let me be
But if you don't want me here
I'll be trying just to hide
Be your virgin suicide till i'm yours again
Forever will be
I'm trying so hard turning my head
Wanna go out and up in my own bed
I don't really seem to need so much more
However it fills my heart out with plunging after yourself
I'm turning my head, wanted to step back again
So i'll meet you there
So girl if you want me here, I am fast by your side
I am yours if you'd mind
Let me be
But if you don't want me here
I'll be trying just to hide
Be your virgin suicide till i'm yours again
Forever will be
I'm falling falling falling again yaaa
So girl if you want me here, I am fast by your side
I am yours if you'd mind
Let me be
But if you don't want me here
I'll be trying just to hide
Be your virgin suicide till i'm yours again
Forever will be
