The Right Stuff (2007 Remastered Version)

Robert Calvert

I don't feel fear or panic
And nothing brings me down
I'm an aerospaceage warriorI can fly sideways through sound
My reflexes and reactions
Are as fast as a machineI'm the right stuff, baby
The right stuff
I'm the right stuff, baby
The right stuff
Just watch my trailWhen the dial needle flickers
Around Mach one or two
And something happens suddenlyI know exactly what to do
My feet move without thinking
And my hands like lightning tooI'm the right stuff, baby
The right stuff
I'm the right stuff, baby
The right stuff
I never failMy nerves are made of steel
And my eyes are eagle sharp
And what would freak the average manDoes not affect my heart
Not even if this sardine can
Should shake itself apart'Cause I'm the right stuff, baby
The right stuff
I'm the right stuff, baby
The right stuff
As hard as nailsI never fail
Just watch my trail
