# Only Foolin'

## Leo Sayer

Don't be fool
Don't be fool
FoolYeah, when we're round at a friend's house
You act so precious and cool
You tell her I'm nothin' special at all
Just somebody who's passing through
Just somebody who's passing throughAnd here am I tryin' to tell you again
But you just don't understand
We could be somethin' special I know
If you'd only let go, take a chance
You try it just once, take a chanceWe're only, we're only, we're only foolin'
(You know that we are)
We're only, we're only, we're only foolin'
(We are)Tell me what are you gonna do
About a fool who's in love with you?
What are you gonna do?When we go out on a Saturday night
Feel like I'm stringing along
I ask you where are we going from here
You know but you're not letting on, babe
Know but you're not letting onHere we are at the crossroads
Between better or worse
You telling me I'm too serious babe
And one of us is gonna get hurt
Why do I always get hurt?We're only, we're only, we're only foolin'
(You know that we are)
We're only, we're only, we're only foolin'
(We are)Tell me what are you gonna do
About a fool who's in love with you?
What are you gonna do?You know that we are, we are
(We're only, we're only, we're only)
Foolin'
You know that we are, we are
(We're only, we're only, we're only)
Foolin'What are you gonna do
About a fool who's in love with you?
When you know it won't do no good
To keep falling in love with you, I gotta know
I wanna know who's foolin' who, yeah(We're only)
Foolin', yeah yeah

(We're only)
Foolin'I wanna know who's foolin' who
(We're only)
Foolin'(We're only)
Foolin', foolin' around
Foolin' around, yes
(We're only)
Foolin'
