

# Moonlight

[Sophie Milman](#)

I'm sure it is bright  
But you left so early that morningIt's known for it's light  
It's not very far  
Come back to me  
For the moonlightIt's so dangerous here  
Love takes my time  
Love makes me worryBut it ain't so far  
To where you are  
We still can meet
