

# People (Come Together)

LEN

The crew is at the crib and the nights on pause  
Brew is in the fridge and the same ol' song  
Is playing on the box and we're starting to think  
Of why we're all sitting here instead of trying to be  
Uptown where it's hot and the girls be all  
There's got to be a way for the crew to score  
L-E-N don't stop 'cause we down by more  
So we get, get up and we all transform We're just being lazy, finally get a call from pea and now  
I'm going 'cause i like grooving to the beat  
On the go  
Get down  
It's time to get, get on your feet and  
Let it beat til the fun beats down Time to get, get live, so-socialize  
Turn down the lows (and mess with the highs)  
Rolling downtown looking for the babies with the pretty eyes  
Getting digits so sly  
Crews so thick people step aside  
Too many of us to fit in one ride  
Take that underbus (underbus)  
All of us together is wondrous I think it's so groovy now  
That people are finally getting together  
I think it's wonderful now  
That people are finally getting together
