## Markku Mattila

In the news of TV, hopeless lifes, hate and blood  
I have never seen worse than this  
Children playing with boats at the war scenes  
I can only wonder  
What is the reason for all this?And still we all are carrying on  
All of us, the old and the young  
Children are born, living in their dreams  
Sailing through those dreamy scenesGenerations come and go  
They don't seem to get wiser at all  
There's a man sleeping with a bottle  
Ask him and he just turns aroundAnd still we all are carrying on  
All of us, the old and the young  
Children are born, living in their dreams  
Sailing through those dreamy scenes
