The First Step

Onward to Mayhem

C thompson, j kravetz, and k reidIf you wanna feed all the children
Then start by feeding one
And if you wanna find a mountain
To build your dreams uponYou need love (the heart to care)
Give me strength (the nerve to dare)It's gonna be great when we get thereTake the first step the hardest to take
Breaking away
Take the first step whatever it takes
All the way
And you're already thereIf you wanna change the system
You better build a better one
You're gonna meet resistance
But the time will comeYou need hope (the will to learn)
Don't give up (the tide will turn)
