

# Should I Come Home (Or Should I Go Crazy)

[Joe Nichols](#)

I wonder if you've had the time it takes to think it over  
And sort out all the feelings in your mind  
Sometimes I think you've found someone to do your thinkin' for ya  
'Cause lately you've been showin' all the signs Should I come home or should I go crazy?  
I'm beggin' you, please, make up your mind  
If you love me, then think it all over  
So, make up your mind or I'll lose mine Last night when I came by, I rang the bell and no one answered  
But I heard voices whisper through the door  
Now I'm not sure if anyone was home to do the talkin'  
'Cause lately I hear voices more and more Should I come home or should I go crazy?  
I'm beggin' you, please, make up your mind  
If you love me, then think it all over  
So, make up your mind or I'll lose mine Should I come home or should I go crazy?  
I'm beggin' you, please, make up your mind  
If you love me, then think it all over  
So, make up your mind or I'll lose mine Should I come home or should I go crazy?  
I'm begging you, please
