Won't Back Down

Spitalfield

Won't back down, really can't turn around
There's no stopping now, no stopping now
I won't quitIt's funny how we communicate
With words on paper, in rhythm
Time is lending a hand to fate
So slow down, slow down and please
Don't ask me why I'm here, just believe itNo, I won't back down
Really can't turn around
There's no stopping now
No stopping now
I won't quit on youWon't back down, really can't turn around
There's no stopping now, no stopping nowAnd I can't be sure of myself
When I've taken all the chances
Are you counting imperfections?
Are you holding out for someone else to hold on to?
Are you? Are you?Up the stairs with the lights down low
Are you on somebody else's mind tonight?
You feel so right to me
I can't be held accountable
My heart is unpredictableAnd no I won't back down, really can't turn around
There's no stopping now, no stopping now
I won't quitAnd I'm not quite sure
Have we been here before?
Please don't let me down
Please just show me how to live without youWon't back down, really can't turn around
There's no stopping now
(I can't leave)
No stopping now
(I can't leave)Won't back down, really can't turn around
There's no stopping now
(I can't leave)
No stopping now
(I can't leave)Won't back down, really can't turn around
There's no stopping now
(I can't leave)
No stopping now
(I can't leave)Won't back down, really can't turn around
There's no stopping now
(I can't leave)

No stopping now
(I can't leave)And no, I won't back down
Really can't turn around
There's no stopping now
No stopping now
I won't quitAnd I'm not quite sure
Have we been here before?
Please don't let me down
Please just show me how to live without you
