

Bewitched (Unplugged)

Blood On the Dance Floor

You're attractive, little witch, you're beautiful
Your wickedness, little witch, it broke my heart
Enchanting words, little witch, you cast a spell
Mass destroyer, little witch, my beautiful apocalypse
You've got me bewitched 'cause I'm under your spell, oh-
ooh
You must be a witch 'cause I am living in hell, oh-ooh
Now is the time, now is the hour
I am the magic, I am the power, oh
All I need is one star in the sky
Wish for you every night
I tricked you to fall in love, little boy
I played with you till I was done, like a toy
Your heart in love, as I destroy the end of you (The end of me)
So easily fooled little boy to think it's true (I'm in love with you)
You've got me bewitched 'cause I'm under
your spell, oh-ooh
You must be a witch 'cause I am living in hell, oh-ooh
Now is the time, now is the hour
I am the magic, I am the power, oh
All I need is one star in the sky
Wish for you every night
Now is the time, now is the hour
To take back my heart, to take back my power
This is the moment to break your spell
I see right through you now burn in hell
Now is the time, now is the hour
To take back my heart, to take back my power
This is the moment to break your spell
I see right through you now burn in hell
Now is the time, now is the hour
To take back my heart, to take back my power
This is the moment to break your spell
I see right through you, burn in hell witch
You've got me bewitched 'cause I'm under your spell, oh-ooh
You must be a witch 'cause I am living in hell, oh-ooh
Now is the time, now is the hour
I am the magic, I am the power, oh
All I need is one star in the sky
Wish for you every night
