Already Moved On

Moot Davis

Stopped by your house the other day
Well, I decided not to knock
You had your shades pulled down low
And your screen door was lockedI heard someone else call your name
You answered just the same
I thought you'd miss me while I was gone
But you'd already moved onNow that didn't take you very long
Blinked my eyes and you were gone
I thought the love we had was strong
But you'd already moved onStarted to rain as I closed your gate
And though I tried hard not to cry
As I reached the end of your street
I couldn't keep tears from my eyesNow that didn't take you very long
I blinked my eyes and you were gone
I thought the love we had was strong
But you'd already moved onNow that didn't take you very long
I blinked my eyes and you were gone
I thought the love we had was strong
But you'd already moved on
I thought the love we had was strong
But you'd already moved on
