

And I Burn

Otep

There is a weight
Within me(And I burn)A kiss
Heavier than the sun(And I burn)A slow invasion
Strange beauty(And I burn)Rejected in the flesh
And odd nourishment
(And I burn)
For my soulThickening
Far away atomsLike fat happy Buddahs
This intimate new language
Softer than the breath
That slips from your lips(And I burn)In the veretoss(And I burn)The depth of you
(And I burn)
Follows meAnd I burn
And I burn
