

TriggerPulse

Kobra and the Lotus

Becoming a resistance, ignition coil tightening
Elevating tension, reached the point of fragmententingAs I turn to dust in the atmosphere
Floating from gravity
I set off like a trigger pulse
Shattering into space
Trigger pulseElemental patterns, woven too deep to remove
Convolutated fabric, this body's hardly bullet proofAs I turn to dust in the atmosphere
Floating from gravity
I set off like a trigger pulse
Shattering into spaceRise! Rise against the pulse
Rise! Triggered no more
Colour me encouraged!
As I turn to dust in the atmosphere
Floating from gravity
I set off like a trigger pulse
Shattering into space
Song Discussions is protected by U.S. Patent 9401941. Other patents pending.
