

Tied to Me (Acoustic Version)

William Fitzsimmons

And all of these days they pass like water
Should I even tighten the grip of my hand?
I get the sense that we're all chasing after

The same simple thing that I don't understand
To carry you on
And you wear a color that I don't remember

Your hair so much shorter than it used to be

Years cannot change all the secrets we gathered

Years cannot change what you still mean to me
To carry you on

Carry you on

Carry you on

Tied to me
I'd like to linger with you till the morning

And pretend the winter has given to spring

Conjure up guilty reminders together

Fade into this like we both used to be
To carry you on

Carry you on

Carry you on

Tied to me
Carry you on

Tied to me

Carry you on

Tied to me
Carry you on

Tied to me

Carry you on

Tied to me
