

# Space Station # 5

## Montrose

Start with a Sun and move on out  
The future's in the skies above  
The Heavens unfold and a new star is born  
Space and time makin' love Oh, what a time we had  
Livin' underground  
I move to station number five  
See you next time around Next time around  
As far as you want and close as you need  
It's all in your mind you know  
This old Earth hasn't really seen it's day  
It's here, time to go Oh, what a time we had  
Livin' underground  
I move to station number five  
See you next time around I remember when it was so clear  
We were young but the memory still remains  
To pick fruit from a tree, fish from the seas  
Now nothin's left here but the stains  
But I can't cry no more, can only be glad  
That there's other places we can be  
If the time suites you right I'm leaving tonight  
Come fly away with me! =, yeah, yeah Start with a Sun and move on out  
The future's in the skies above  
The Heavens unfold and a new star is born  
Space and time makin' love Oh, what a time we had  
Livin' underground  
I move to station number five  
See you next time around Next time around, yeah, yeah
