America

Sodastream

Warm bodies, they told me
Out east there was something new
In seasons, I called out
I thought I had something due
'cause I've got a ticket to America
We'll be there soon
We'll meet in America
How about you

I want to meet in America
Shoot across the country with you
I want to meet in America
With the cinnamon and the violence too
Maybe we could trip down to phoenix
With your black hair and your favorite cartoons
I want to meet in America
How about you
How about you

I want to meet in America
Been working with the nation blue
I want to meet in America
We'll be skating and throwing harpoons
Maybe with a day trip to Memphis
We'll see the king and all his blue suede shoes
I want to meet in America
How about you
How about you
