

# No Sympathy

## Bob Marley & The Wailers

I just can't find no love, no sympathy  
What kind of love, they've got for me  
I'm on my way to happiness  
Where I can find some peace and rest  
When I'm in my sorrows, yeah yeah yeah  
It's only me, only me feels them pain, sad pains  
Not one good word of advice  
From any of my so called friends  
I just can't find no love, no sympathy, yeah  
What kind of love, they've got for me  
I'm on my way, yeah, to happiness  
Where I can find some peace and rest  
Hmm, might as well, might as well  
I get out, I get out of hell  
Because hell would never be made for me  
So I'm gonna search, search 'till I'm free  
No love at all, no sympathy  
What kind of love, the people got for me  
I'm on my way, my way to happiness  
Where I can find some peace and rest  
No love, no love and no sympathy  
What kind, what kind of love, they've got for me, yeah  
I'm on my way, on my way to happiness, happiness  
Where I, I can find some peace and rest  
No love, no sympathy
