

# Obsession

## Unwritten Law

Caught in this endless trap, you neglect to see  
All of the aspiration built up inside of me  
I want to express myself and say what's on my mind  
You're that perfect person and that's so hard to find  
Something's burning inside of me, obsession, depression  
Why won't she fall for me? Obsession, depression  
All I wanted was to be with you  
I can't believe it's true, obsession  
Obsession, depression  
Obsession, depression, killing my mind  
You won't give me a chance, you just say, leave it be  
I want to get in your pants is all you think and see  
You've got a new guy now, what am I supposed to do?  
I guess I'm fucked, 'cause I've been played by you
