

Fiend

LUXT

It's the darkest place
Like beneath the stairs
The [Incomprehensible] it comes
And it takes me everything, everything in sight
 All through the night
 Leaving scars
 And crashing cars
 Fiend for the fans and
 Fodder for the press
 Fiend for the fans and
 Fodder for the press
 Fiend for the fans and
 Fodder for the press
 Fiend for the fans and
 Fodder for the press
 Fiend for the fans and
 Fodder for the press
 You my life
 For everyone to see
 For you a charade
 For me a disease
 And everything in sight
 All through the night
 Leaving scars
 And fucking stars
 Still reasoning my life
 Still reasoning my life
 Still reasoning my life
 Fiend for the fans and
 Fodder for the press
 Fiend for the fans and
 Fodder for the press
 Fiend for the fans and
 Fodder for the press
 Fiend for the fans and
 Fodder for the press
 Still reasoning my life
 Still reasoning my life
 Still reasoning my life
 It's do or die
 It's do or die

It's do or die
It's do or die
It's do or die
It's do or die
Not for me
Still reasoning my life
Still reasoning my life
Still reasoning my life
Fiend for the fans and
Fodder for the press
Fiend for the fans and
Fodder for the press
Fiend for the fans and
Fodder for the press
Fiend for the fans and
Fodder for the press
Fiend for the fans and
Fodder for the press
Fiend for the fans and
Fodder for the press
Fiend for the fans and
Fodder for the press
Fiend for the fans and
Fodder for the press
Still reasoning my life
Still reasoning my life
Still reasoning my life
