

Unopposed

[MxPx](#)

We're all walkin' down a dusty road
I wouldn't care to bear the load
I know my limits but you won't leave me alone It's a system unopposed
For those of us who won't say no
Your time is your own now, face the facts are real
'Cause they are real Establishing lines always comes first
So many don't realize the pain they cause We're all walkin' down a dusty road
I wouldn't care to bear the load
I know my limits but you won't leave me alone It's a system unopposed
For those of us who won't say no
Your time is your own now, face the facts are real
'Cause they are real, yeah Establishing lines always comes first
So many don't realize the pain they cause
