

# Hooligans

## Example

I don't know if you understood  
When it rains down, then drop the hoods  
End of the night, it's quite likely  
Brand new Nikes fucked for good  
Lose your Rolex, rip your t-shirt  
Bounce up till both your knees hurt  
Jump up with your hands apart  
You're all going home in an ambulance  
Where's all the hooligans?  
The nasty music fans  
Let's see ya break some bits  
And make this pit a zoo again  
Where's all the hooligans?  
The nasty music fans  
Let's see ya break some bits  
And make this pit a zoo again  
We came, we saw, we killed the crowd  
We came, we saw, we killed the crowd  
We came, we saw, we killed the crowd  
We came, we saw, we killed the crowd  
A field full of ravers with their ribs broken  
Bounce up till their shins open  
Bones poking through  
All beat up but a token few

Was hoping you would come to riot  
Bring storms for you to ride it  
If you ain't hurt and covered in dirt  
You didn't turn up, shudda gone to work  
Where's all the hooligans?  
The nasty music fans  
Let's see ya break some bits  
And make this pit a zoo again  
Where's all the hooligans?  
The nasty music fans  
Let's see ya break some bits  
And make this pit a zoo again  
Where's all the hooligans?  
Brand new Nikes fucked for good

We came, we saw, we killed the crowd  
We came, we saw, we killed the crowd  
We came, we saw, we killed the crowd  
We came, we saw, we killed the crowd  
We came, we saw, we killed the crowd  
We came, we saw, we killed the crowd  
We came, we saw, we killed the crowd  
We came, we saw, we killed the crowd

....
