

When You Find The One

[Melissa Etheridge](#)

I was a slick Midwestern gal on a long hard road into southern Cal
Didn't find any crime, fillin' up all my time
I had the devil in my bones and an angel on my mind And I drank up all the movies and I searched for happy
endings
I turned love inside out till I was perfectly pretending
Still I believed it could be true When you find the one, there's no question in the silence
All is said and done, when you find the one, when you find the one You could say that I was crazy, I was that
kinda girl
I had to open up a lot of oysters before I found myself a pearl
I had to kiss a lot of frogs to find my grass was green enough
Had to be face down in the gutter to see what is and isn't love Then I woke from all the dreaming to your taste
and to your laughter
I cried till I was dry and now live my ever after
I believe I always knew When you find the one, there's no question in the silence
All is said and done when you find the one
And when you make the choice to believe in your existence
With hello, you will know, when you find the one I believe it could be true, yes I believe, I always knew
And I believe it could be true and I believe I always knew When you find the one, there's no question in the
silence
All is said and done, when you find the one
And when you make the choice to believe in your existence
With hello, you will know, when you find the one, with hello, you will know
