

If You're Going to Break My Heart

[Jill Barber](#)

If you're going to break my heart
Tell me now right from the start
Let's not pretend
You'll be there for me
Not if you care for me
If your love, I'll never win
Tell me now before I begin
to get carried away
and be left wonderin'
Where do dreams go?
The ones that never come true
And when will the clouds go?
To make way for skies of blue?
If you're going to break my heart
Tell me now right from the start
Too many words are spoken
Too many promises broken
If you're going to break my heart
Please tell me now
Always give away my heart too fast
want to save it for a love that will last
you won't spoil the end
I've been through this all before you see
