

# Can'tneverdidnothin' (Revised)

[Nikka Costa](#)

Can'tneverdidnothin' and neither did couldn't  
Never did nobody, no good  
You better plant in your garden  
And make sure you water it like you shouldTime spoiled you rotten, you done forgotten  
Why you been put here, come on  
Can'tneverdidnothin' and neither did couldn't  
But make your dreams disappearBlaming everybody who dealt your hand  
But you're keepin' your on head in the sand  
You should be sweatin' while you sit at home  
Looking under your bed for your backboneInstead, you ridin', bitch, till the tables turn  
Till you get your check, till your luck returns  
How are you expecting to find your way?  
With shoulda, woulda, coulda coming out your faceCan'tneverdidnothin' and neither did couldn't  
Never did nobody, no good  
You better plant in your garden  
And make sure you water it like you shouldTime spoiled you rotten, you done forgotten  
Why you been put here, come on  
Can'tneverdidnothin' and neither did couldn't  
But make your dreams disappearYou keep ridin' your bike in a cul-de-sac  
Think you're getting somewhere ridin' piggyback  
You're only gettin' out what you're puttin' in  
So stick your neck out, take it on the chin'Cause there's a whole lotta nothin' goin' on for too long  
'Cause the time isn't right 'cause it feels all wrong  
Wishin' like a baby you could just get on  
Ain't nothin' doin' while nothin's doneCan'tneverdidnothin' and neither did couldn't  
Never did nobody, no good  
You better plant in your garden  
And make sure you water it like you shouldTime spoiled you rotten, you done forgotten  
Why you been put here, come on  
Can'tneverdidnothin' and neither did couldn't  
But make your dreams disappearCan'tneverdidnothin' and neither did couldn't  
Never did nobody, no good  
You better plant in your garden  
And make sure you water it like you shouldTime spoiled you rotten, you done forgotten  
Why you been put here, come on  
Can'tneverdidnothin' and neither did couldn't  
But make your dreams disappear[Incomprehensible]
