

Stand Strong (feat. Vince Villagomez)

Iya Terra

Wake up!
We a go rise with the sun
We haf e get tha day agoin', so early in da morn
I take a little draw, give thanks and praises to da most high JAH

I give thanks some dreams never die
We haf e keep that dream alive so when tha times get hard,
Only the strong shall survive
Along side them up and let the righteous kind
We say...

We haf e stand strong
Have a little faith in love
Cause our time has come!

Positive! People!
Livin' in a world of confusion
Said we got to reach up to tha sky... oh yeah
Positive! People!
Livin' in the world
So much confusion
One love, one love

Well I've heard so many things since my time has begun
A student of the Earth until my time is done
And we uh judge no one, we uh judge no one
Never, ever, ever will I judge no one

Mah brother!
Iyana respect your beliefs
Can't let yourself become your own enemy
Well
It's up to you to make tha change
Don't wanna be livin' in vain no more.. ah

We haf e stand strong
Give it and you will get love
Because our time has come!

Positive! People!

Livin in a world of confusion
Said we got to reach up to that sky... oh yeah
Positive! People!
Livin in the world
So much confusion
One love, one love

Stand strong...
Stand strong, in love
(2x)
