Never Bow Down

Third Day

Take me from my home
Drag me with the tether
Tell me it's all wrong
The things I've always knownInstill in me all that you think
Will make all of us better
Do just what you want
It matters not to meI will never bow down
Though I know, I will be saved from the fire
I will never compromise
All that I have and everything I hold, oh noCall us all around
To show us what you have made
Command us all to fall
When music starts to playAnd everyone from everywhere
Will show you their allegiance
But the child of God
Will faithfully stand tallI will never bow down
Though I know, I will be saved from the fire, oh yeah
I will never compromise
All that I have and everything I hold, oh no, oh noI will never bow down
Though I know, I will be saved from the fire, oh yeah
I will never compromise
All that I have and everything I hold, oh noI will never bow down
Though I know, I will be saved from the fire, oh yeah
I will never compromise
All that I have and everything I hold, oh noI will never bow down
No no
