

Clouds

Chymes

Pull away my frame
He's standing in the way
Fall back in time
Erase the line

Walking on the clouds below
Feeling sad, i'll never know
Are we gonna be this slow
(2x)
Slow(3x)

A moment found inside
We closed our eyes
Your skin became close to mine

Walking on the clouds below
Feeling sad, i'll never know
Are we gonna be this slow
