

# Let Me See You Shake

## Black Stone Cherry

Big wheel's spinning round again  
And these five words are what I said

[Chorus]

Let me see you shake  
Let me see you shake  
Let me see you shake what your mama gave you  
Down to the floor

Let me see you shake

She been going all night long  
Well she said oh damn this is my song  
and then the big wheel's spinning round again  
And these five words are what I said

[Chorus]

Let me see you shake

Must've been about a quarter to three  
That girl was hailing a cab outside the whiskey  
She squeezed my lemon just to drink the juice  
But California love is what turned her loose

[Chorus: x3]

Let me see you shake
