You Think You Know

Icarus Himself

I've been told a lot of things
I've been told a lot of things
But never what's on your mind
I've been told a lot of things

You've been sold a secret key
You've been sold a secret key
Held close to your pride
You've been sold a secret key

You think your heart is made of gold
You think your heart is made of gold
Keep telling yourself you think you know
You think your heart is made of gold
