

Risque

Cute Is What We Aim For

I've got birds in my ears and a devil on my shoulder
And a phone to the other, and I can't get a hold of her
And what's a crush to do? And what's a crush to do
When he can't get through? Medically speaking you're adorable
And from what I hear you're quite affordable
But I like them pricey, so exaggerate and trick me
Pretty please, just trick me, pretty please I've got birds in my ears and a devil on my shoulder
And a phone to the other, and I can't get a hold of her
And what's a crush to do? And what's a crush to do
When he can't get through? I'm obsessed and stressed with this mess
I can't think of things to write down, to type down
And these fingertips are moving faster than these lips
So you can only imagine how jealous my mouth is
So you can only imagine how jealous my mouth is I've got birds in my ears and a devil on my shoulder
And a phone to the other, and I can't get a hold of her
And what's a crush to do? What's a crush to do?
I got birds in my ears and a devil on my shoulder
And what's a crush? What's a crush to do? I'll turn on a dime, spin me around
So you can shine, shine right now
We'll even have a crowd
We'll make this purchase count Medically speaking you're adorable
And from what I hear you're quite affordable
But I like them pricey so exaggerate and trick me I got birds in my ears and a devil on my shoulder
And what's a crush to do? What's a crush to do?
I've got birds in my ears and a devil on my shoulder
And what's a crush? What's a lush to do? I've got birds in my ears and a devil on my shoulder
And what's a crush? And what's a lush to do?
When he can't get through
